

Water Security Research Scholarships

The Water Research Node at Monash South Africa is pleased to announce that they have available 5 prestige full scholarships for full time study towards a Master of Philosophy in Integrated Water Management for 2014. Successful candidates' research will be part of an existing water security project.

Scholarships include full tuition for the duration of the degree (2 years full time), accommodation in one of the Monash residences and a small monthly living stipend.

Applicants need to meet the following entry requirements;

- Be in possession of a degree of bachelor with a minimum upper H2B (a mark of 65 or above) in an honours year in a relevant field, or its equivalent; or
- have qualifications which in the opinion of the GRC are equivalent or a satisfactory substitute.

Applicants also need to be proficient in written and spoken English, through a recognised English language test.
